WHAT I BUILD

- Revenue, gross margin, EBITDA & net cash-flow KPIs
- Revenue vs EBITDA trend across the year
- Cash-in vs cash-out with net cash-flow overlaid
- Expense breakdown and budget-vs-actual by department

FAQ

Can you match my chart of accounts?

Yes — the P&L and expense structure is built around your accounts and categories.

Can you automate the monthly refresh?

Yes — drop in the new month's figures and every KPI and chart updates.

Is my financial data confidential?

Always — strictly private, NDA on request.

About the seller — I'm Atakan, a mechanical engineer (MSc) who spent years in aviation and procurement drowning in spreadsheets — so I learned to build the dashboards I wished I'd had. Today I turn messy Excel exports into clean, interactive dashboards a manager can read in ten seconds. Everything I build is native Excel — real charts, KPIs, slicers and automation, not screenshots.
