- Headcount and attrition by department
- Hiring funnel from applied to hired
- Tenure distribution and a per-team scorecard

FAQ

What data do you need?

A simple headcount/roster export and (optionally) hiring and leaver data.

Can you track attrition monthly?

Yes — trend attrition, hiring and tenure over time with automated refresh.

Is employee data confidential?

Always — handled privately and anonymised on request.

About the seller — I'm Atakan, a mechanical engineer (MSc) who spent years in aviation and procurement drowning in spreadsheets — so I learned to build the dashboards I wished I'd had. Today I turn messy Excel exports into clean, interactive dashboards a manager can read in ten seconds. Everything I build is native Excel — real charts, KPIs, slicers and automation, not screenshots. See live samples at data.vexloft.com and open the exact Excel file behind each one.
