About the seller — I'm Atakan, a mechanical engineer (MSc) who spent years in aviation and procurement drowning in spreadsheets — so I learned to build the dashboards I wished I'd had. Today I turn messy Excel exports into clean, interactive dashboards a manager can read in ten seconds. Everything I build is native Excel — real charts, KPIs, slicers and automation, not screenshots. See live samples at data.vexloft.com and open the exact Excel file behind each one.
